

Freemark Financial

Beverly Hills, CA

Freemark Financial aspired to “effortless sophistication and coolness” for their offices in a Beverly Hills, California mid-rise.

LOCATION:
Beverly Hills, CA

Handsome detailed materials are meticulously arranged within the exposed concrete shell and core to create a showcase that balances elegance and functionality. An arresting panoramic view of the city in the reception area reception is anchored by a cantilevered reception desk and tuxedo sofa. Floor to ceiling glazing draws the outside in. Pendant lights accentuate the height of the exposed concrete slab above. The 15' high ceilings with suspended dark perforated panels with recessed lighting and polished walnut floors guide internal circulation.
